Flawed foundation is the root cause of failure of medicine and precludes cures for chronic diseases

Published On: September 15, 2023 | Pages: 001 - 019

Author(s): Jianqing Wu* and Ping Zha

Modern (science-based) medicine adopted four presumptions when it evolved from ancient experienced-based mind-body medicine. To understand its failure in finding cures for chronic diseases, we examined four presumptions and found that statistical population of health properties does not exist for most research purposes, mathematical models are misused to model intensi ...

Melanoma and basal cell carcinoma: Mimickers of each other

Published On: September 23, 2023 | Pages: 020 - 022

Author(s): Gustavo de Sá Menezes Carvalho*, Isabella N Dana, Juliana Casagrande Tavoloni Braga and Ashfaq A Marghoob

Basal cell carcinoma and malignant melanoma display unique dermoscopic features, at times they can mimic each other. A few clinical and dermoscopic algorithms, including the ABCD rule and the seven-point checklist, have been developed to simplify the diagnostic process. However, these tumors may present ambiguous dermoscopic patterns, lacking typical dermoscopic crite ...
